

It has come to my attention that the NAB is attempting to limit the content of XM Radio. In particular, I understand that an attempt to take away traffic and weather from the lineup is underway. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. With this in mind, I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that all XM subscribers demand and deserve.
